STRATEGIC PLAN:

Service: Service

Goal: Steward fiscal Resources, and further environmental

and social sustainability.

Strategy: Use financial modeling and other planning tools to

holistically evaluate, plan and forecast necessary expenditures for system expansion, operations, and

maintenance.

BACKGROUND

As part of mid-term comprehensive plan update the district is updating its park SDC project list, fees, and ordinance. Galardi Rothstein Group was the consultant used in 2019 to update the district's park SDC methodology, project list and fees, and they most recently prepared an update of the city of Bend's sewer, water, and transportation SDCs. The district is again using Galardi Rothstein Group because of their familiarity with the district and the city SDC programs.

Specific project tasks are as follows:

- SDC Analysis: Existing acreage and facility inventories were updated to reflect acquisitions and improvements since 2018. Future park acreage, trail mileage, and indoor recreation facility square footage are based on BPRD's revised project list from the 2024 Comprehensive Plan Midterm Update.
- 2. Develop Unit Costs and SDC Schedules: The reimbursement and improvement costs attributable to growth were divided by the total number of people to be served, which includes future residents and nonresident visitors. Updated population and visitor

- projections reflect the 2024 Comprehensive Plan mid-term update assumptions and other available information.
- 3. Documentation: The updated SDC calculations and project list will be documented in a report that describes the methodological steps and assumptions used to determine the SDC-eligible project costs and fee schedule. The report will include the updated project list and maximum allowable fee schedule as appendices.
- 4. Review BPRD's SDC ordinance: The existing ordinance will be reviewed for housekeeping and other changes to align with any needed clarifications and evolving legal requirements.

Deb Galardi and staff created the new project list and the resulting fee schedule (see attachments 1 - 4). During the work session, the proposed project list and the pros and cons of the updated SDC rates and level of service implications will be presented for board feedback.

The next steps following the work session are:

- Review and update BPRD's SDC ordinance. The existing ordinance will be reviewed for housekeeping and other necessary legal clarifications or changes.
- Conduct the public hearing, first reading and second reading of the revised Ordinance. Adopt ordinance.
- Adopt resolution(s) approving the new project list and SDC fees.

BUDGETARY IMPACT

The SDC fee schedule impacts future SDC fee revenues and the funding available for SDC eligible projects in the district's adopted Capital Improvement Plan.

BACKGROUND

The purpose of this work session is to provide follow-up information about work completed since the Oct. 1, 2024 work session about the process to update the district's Park Rules and Regulations.

The Park Rules and Regulations Ordinance was last adopted in September 2018 (see Attachment A). Since then, the population of the Bend area has grown and new issues have emerged in the parks and on the trails necessitating an update to the rules. Some of those issues include electric bikes and other rolling devices, parking lot misuse and defining enforcement options. In addition, rules need to be updated to reflect current operations under temporary rules related to restroom use.

Over the last several months, district staff have worked with legal counsel and law enforcement partners to update the ordinance for board consideration. New or revised sections include:

- New definitions section.
- New Waters and Waterways section (mostly reorganizing/grouping rules already in existence).
- Inserted "Weapons" as replacement for "Firearms" in section with hunting and fireworks.

- Animals section added maximum length of leash to be 15 feet. Also added "Only Assistance Animals" are allowed in facilities.
- Vehicles section new language to address e-bikes and other rolling devices. Intent is to allow pedal-assist bicycles on trails and in parks; throttle-assist electric bicycles for parking areas only like a motorized vehicle. Other new language addresses vehicles blocking traffic and allows for Park Steward enforcement of general vehicle code violations.
- Restrooms section taking temporary rules in effect since July 2024 and adding to the ordinance including: 10-minute limit, not occupied by more one person unless parent, guardian or caregiver. Also prohibits storing belongings and other unintended uses of restrooms. Added language addressing use of restroom corresponding to gender identity.
- Updates to business operations and organized events permit processes to reflect current practices.
- Exclusions proposed to have 4 levels and more detail, informed by legal counsel.
- Appeals process has more details.

During work session, staff will share details about the proposed updates and assess if proceeding with first and second readings of the ordinance are appropriate next steps.

VISITORS

Craig Lacy: Mr. Lacey shared his knowledge of the history of the Deschutes River and fish statistics. He shared his concern for the fish passage design and asked that the board to urge two-way passage by ODFW.

Jerry Freilich: Mr. Freilich spoke of his expertise and advocated for upstream and downstream passage for fish. He recommended that Pacific Power be brought to the table to contribute financially.

WORK SESSION

1. UDWC Fish Passage – Kris Knight

Mr. Knight, Executive Director of the Upper Deschutes Watershed Council (UDWC), provided an update on the Mirror Pond Dam fish passage project. He reminded the board that fish passage at the Newport Avenue dam was a goal in the 2015 Mirror Pond Vision, developed by the district, the City of Bend, and other partners. Since then, Pacific Power has decided to maintain the dam, making it the last remaining fish barrier in Bend.

Knight highlighted past fish passage improvements, including the Whitewater Park and the fish ladder at the North Canal Dam. In 2021, the district and the City of Bend established the Mirror Pond Fish Passage Advisory Committee, which supported a feasibility study and alternatives analysis. The study was funded by contributions from the district, Pacific Power, and a grant secured by the Upper Deschutes Watershed Council.

In 2023, the committee selected a nature-like fishway as the preferred solution, which was supported by both the district board and the Bend City Council. Mr. Knight reported securing nearly \$400,000 in grants from the Oregon Watershed Enhancement Board and Oregon Department of Fish and Wildlife (ODFW) to fund engineering design, which will begin in 2025 and be completed by 2026.

UDWC, ODFW, and Pacific Power are finalizing roles and responsibilities for design and construction. While the project primarily focuses on upstream fish passage, efforts will be made to encourage downstream movement. Knight acknowledged challenges posed by the hydro facility's turbines and noted potential design solutions.

Board members expressed appreciation for the project's progress and community collaboration. Director Schoen asked about downstream passage, and Mr. Knight explained that turbine screening would be a separate effort. Director Owens confirmed that the district's role is to support the project, while Director Barram offered letters of support for future grants. Director Hovekamp stressed the need to consider potential dam removal in the design, which Mr. Knight confirmed was a key factor in selecting the nature-like fishway.

Board members reiterated their support for the project, recognizing its importance in restoring fish passage in Bend.

2. Snow Removal Update – Mike Duarte and Sasha Sulia

Mike Duarte provided an update on snow removal, emphasizing the district's objective to ensure public access to parks and facilities in a safe and timely manner while complying with the City of Bend ordinances.

Sasha Sulia shared data on snow removal operations, noting that staff clears 45 miles of sidewalks and maintains 35 parking areas, covering nearly 35 acres. In total, snow removal efforts span 84 parks and trails.

Mr. Duarte discussed the district's snow removal strategies, which include thorough planning and coordination, the use of technology, and real-time monitoring. He outlined the equipment utilized for these operations and explained that crews are composed of staff from the landscape, trails, and natural resources teams, with additional support from the facilities, shop, and building recreation facilities teams.

He stated that when snowfall reaches two inches or more, all district parking lots are plowed, sidewalks are cleared, and ice melt is applied as needed. Post-storm operations continue for several days to address any lingering snow and ice.

Ms. Sulia reviewed the process for determining delays or closures, referring to the Recreation Facility and Program Snow and Ice Procedures. This process includes assessment protocols, decisions on delayed openings or early closures, and communication strategies to inform the public.

Mr. Duarte highlighted the challenges of snow removal, which include unpredictable weather, poor road conditions, traffic, labor and scheduling constraints, and the need for seven-day-a-week coverage with on-call staff.

Director Schneider inquired about prioritization, to which Mr. Duarte responded that recreation facilities, the district office, event rental locations, and high-use parks and trails receive priority. The board expressed their appreciation for the teams' efforts in maintaining accessibility and safety.

Director Hovekamp asked if any measures could be taken to address the issue of soft-surface trails becoming icy from use, particularly in conditions where ice persists beyond the snowmelt.

Director Barram inquired about the adequacy of equipment storage for snow removal. Mr. Duarte explained that various pieces of equipment are housed at different facilities, and the current arrangement meets operational needs effectively. Additionally, he noted that some buildings are heated, which helps keep adjacent sidewalks clear.

3. Board Stipends – Sheila Reed

Ms. Reed presented a proposal for board stipends, citing best practices to reduce barriers to participation, particularly for individuals with financial constraints. She referenced research from other park districts, particularly Tualatin Hills, and proposed a stipend of up to \$50 per meeting, capped at four meetings per month (\$200 total), with a quarterly reimbursement process.

Board members discussed the logistics, including tax implications and the option for members to donate their stipends. Director Schoen asked whether the stipend would be issued as a W-2 or 1099, with Ms. Toney confirming it would be a 1099. Directors also discussed the flexibility of stipend use, allowing members to allocate funds at their discretion.

Director Schoen emphasized her desire to make board service more accessible, particularly for working parents and young professionals. She noted that child care assistance had been ineffective in the past at other agencies, as parents preferred not to bring their children to board meetings. Other board members supported the stipend as a modest but meaningful step toward increasing participation.

Discussion also covered the possibility of simplifying the stipend process by offering a flat rate instead of tracking meetings. Ms. Reed clarified that special districts must follow Oregon statute, which specifies stipends as "per meeting" and expressed concern of a flat amount exceeding the actual participation of the b. The board also reviewed flexibility in setting meeting limits and the option to reassess the stipend amount in future budget cycles.

The board expressed general support for the proposal and agreed to bring it to a future business session for a formal decision. Director Owens voiced personal reservations but acknowledged the potential benefits for increasing diversity and accessibility on the board.

BOARD AGENDA COMMUNICATION

AGENDA DATE: February 4, 2025

SUBJECT: Parkside Place Purchase and Sale Agreement and

Surplus Property

STAFF RESOURCE: Rachel Colton, Park Planner

Michelle Healy, Executive Director

PREVIOUS BOARD ACTION: Previously discussed in executive session

ACTION PROPOSED: Approve purchase and sale agreement for the Parkside

Place park site and surplus Litchfield property

STRATEGIC PLAN:

Priority: Service

Goal: Support the recreational needs of an evolving

community through programming, parks, trails, and

facilities

Strategy: Maintain adopted levels of service targets for parks,

trails, and facilities

BACKGROUND

In 2016, the Oregon Legislature passed House Bill 4079 that created a pilot program allowing two cities to expand their urban growth boundaries (UGB) without going through the standard UGB expansion process to promote the development of affordable housing. On June 19, 2018, the board passed Resolution No. 414 in support of the city of Bend's application for a UGB expansion project for affordable housing at what is now known as the Parkside Place project (Exhibit A – Location Map). The state approved the application in 2018, and since then staff have been working with the city and two developers (Hayden Homes LLC is the second and current developer) during the land development process for Parkside Place.

Parkside Place is an approximate 37-acre development that will contain a mix of 346 single family, town home and multi-family housing units of which 40%, or 139 units, will be affordable with costs not to exceed 80% of the Area Median Income (AMI). Thirty of the 139 affordable units will be for sale and be eligible for waivers from the district's system development charges (SDCs) if waivers are available at the time of development. The remaining rental units are not eligible for waivers because they exceed the 60% AMI income limits set by the district's SDC waiver program.

Parkside Place includes a proposed, approximately 4.09-acre neighborhood park (Exhibit B – tract E) and three tracts (Exhibit B – tracts A, B and F) that Hayden Homes will transfer to the district for ownership and operation of the Big Sky Trail. The proposed park site is located within park search area 14, identified in the district's comprehensive plan would address identified park needs within the district's service boundaries.

District staff have negotiated a draft purchase and sale agreement for the neighborhood park and trail properties. Key details of the agreement include:

- Property Per the city approved Parkside Place master plan, a minimum of 3.71 acres of open space is required and the developer is providing 5.55 acres. The district would purchase the difference in acreage between what is required and what is provided, or 1.84 acres. The total property the district would receive includes an approximately 4.09-acre park site, and three trail properties totaling approximately 38,756 square feet, for a total land area of approximately 4.98 acres.
- **Purchase Price** The purchase price is based upon the appraised value of the proposed park site. The total purchase price is \$801,504.
- Park and Trail Development The developer will be responsible for the design and construction of the Big Sky Trail in tracts A, B and F. The district will be responsible for the design and construction of the park and Big Sky Trail in tract E.
- **Maintenance** The district will maintain the park and the Big Sky Trail through Parkside Place.

Litchfield Property

The Litchfield property is located approximately one-third of a mile west of the proposed park site in the Parkside Place development and is within park search area 14 (Exhibit A – Location Map). If the district purchases and builds a larger neighborhood park in Parkside Place, the development of the Litchfield property for a neighborhood park would be unnecessary. The district purchased the Litchfield property site in 2016 for \$218,000 using system development charge (SDC) funds. It was appraised in February 2024 and valued at \$620,000. This value reflects a raw land value of approximately \$720,000 minus an assumed cost of \$100,000 to improve Livingston Drive. Staff estimate that the development of Livingston Drive will cost closer to \$200,000, reducing the value to approximately \$520,000.

BUDGETARY IMPACT

The district's 2025-2029 Capital Improvement Plan (CIP) identifies \$2,176,400 in SDCs for the project with \$571,900 of approved funding for property acquisition in the current fiscal year. The remaining funds for design and development are identified in fiscal years 27-29. If the board approves the purchase and sale agreement, with a proposed purchase price of \$801,504, the district will allocate additional SDC funds in the next CIP to ensure the district can purchase the property in fiscal year 25-26. District staff will be recommending updates to this project in the 2026-2030 CIP to better align with anticipated acquisition, design, and construction timing. The draft PSA contemplates district acquisition of the property no later than June 30, 2026.

If the Litchfield property is designated as surplus by the board, the potential sale of this property would offset a portion of the total cost of the Parkside Place park site, however, those proceeds are dependent upon future board approval of a sale.

STAFF RECOMMENDATION

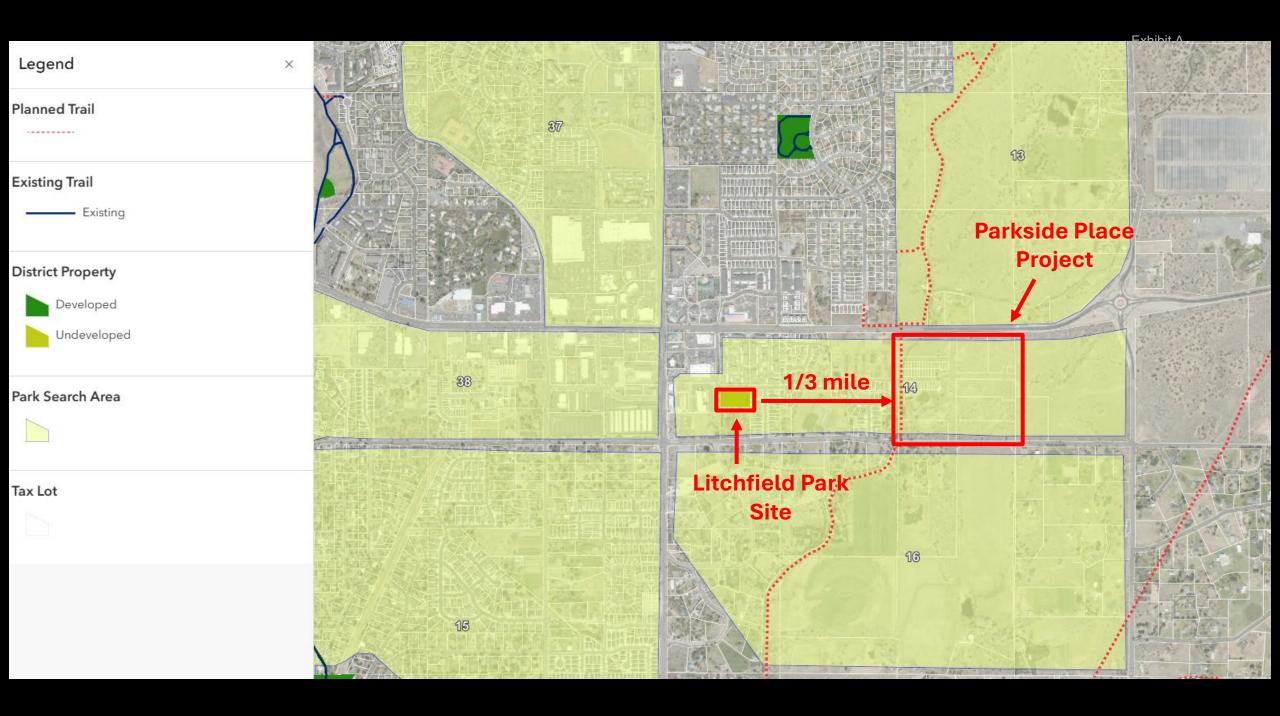

Staff recommend authorizing the executive director to negotiate and execute a PSA with Hayden Homes LLC for the Parkside Place property and designate the Litchfield property as surplus.

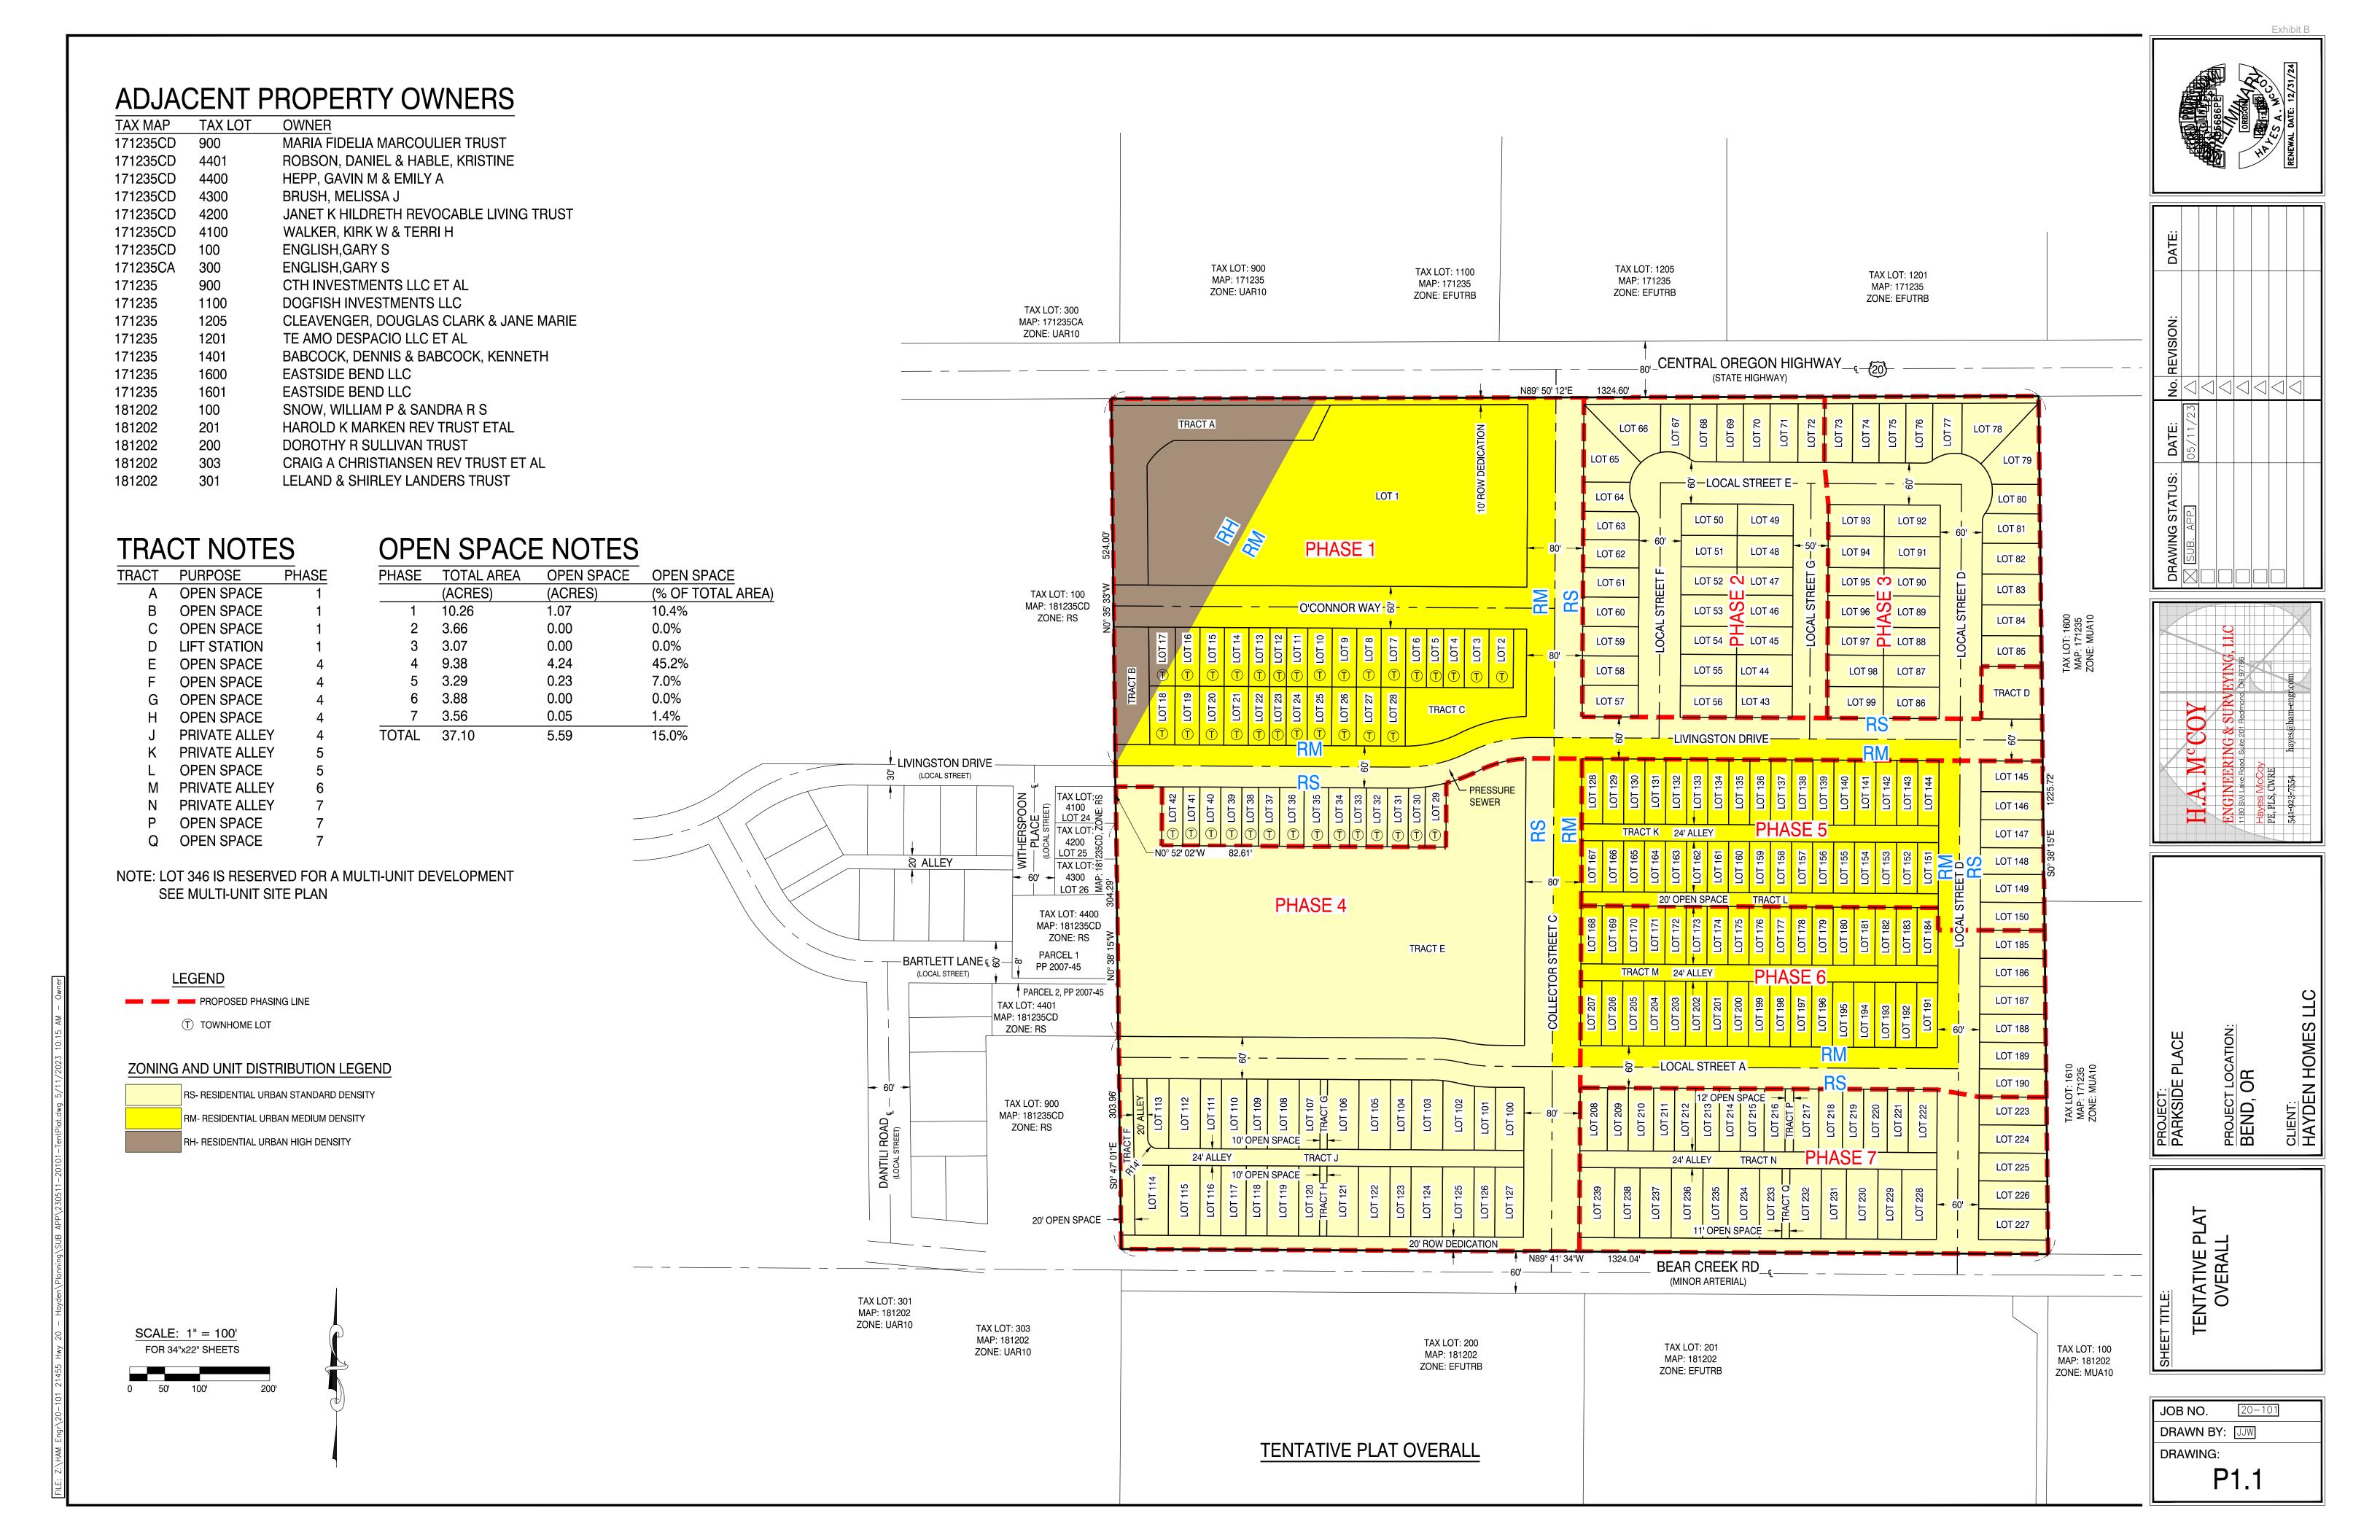

MOTION

I move to: (1) authorize the executive director to negotiate and execute a Purchase and Sale Agreement with Hayden Homes LLC for the acquisition of land for parks and trails in the Parkside Place development for an amount not to exceed \$801,504, plus all related closing, legal and due diligence costs; and (2) find that the 1.5-acre Litchfield property is not needed for public use and that the public interest may be furthered by sale of the property.

PLANNING & DEVELOPMENT PROJECT UPDATES February 2025

COMMUNITY AND REGIONAL PARK PROJECTS

<u>Pine Nursery Park Phase 5:</u> The engineering and building permit applications are anticipated to be submitted this month, as well as an application for a Travel Oregon grant. If awarded, the grant money will help fund existing path renovations and new paths that will improve access and connectivity.

This project will construct the final features identified in the approved development plan for this highly used community park. Project work includes athletic field lighting, artificial turf infields, pickleball courts, new trail connectivity, ADA access improvements, off-leash dog area improvements, maintenance area improvements, landscaping and irrigation. Budget permitting, the project may also include full-court basketball, pickleball court lighting and pedestrian trail lighting. https://www.bendparksandrec.org/project/pine-nursery-park-phase-5/

<u>Sawyer Park Upgrades:</u> Coordination regarding the memorandum of agreement (MOA) for the cultural and historic resource mitigation with the National Park Service (NPS), Oregon Parks and Recreation Department (OPRD) and the Confederated Tribes of Warm Springs is ongoing. When the MOA is complete, BPRD will host a public meeting to share information about it. City permit coordination is also in progress.

Decades of use and increased visitors to the park has created the need for an improved entrance and parking lot. The plans include relocating the parking area closer to O.B. Riley Road, adding accessible parking, habitat restoration, improving trail accessibility, and the addition of a permanent restroom, picnic shelter and river overlook. This project is funded in part by grants from the Land and Water Conservation Fund and the Local Government Grant Program. https://www.bendparksandrec.org/project/sawyerparkupgrades/

NEIGHBORHOOD PARK PROJECTS

<u>Manzanita Ridge:</u> Construction has begun at Manzanita Ridge Park. Tree protection, silt fencing and construction fencing has been installed. Work is anticipated to be complete in the fall of this year.

This property will provide a new neighborhood park for surrounding residents in Shevlin West. The preferred concept design includes open lawn, picnic facilities, a shade shelter, play areas, soft surface and paved trails, benches, bike parking, and ADA designated street parking. A trailhead for the Manzanita Trail is also located in the park. https://www.bendparksandrec.org/project/shevlin-west/

TRAIL PROJECTS

North Unit Canal Trail – Phase 1: The district has awarded Wilson Curb Inc. a contract for \$89,235.50 for the construction of the trail crossing improvements at Brinson Road. This portion of the project is scheduled to be completed early spring of this year. The district is also in active negotiation with several private landowners for trail easement acquisitions between Canal Row Park and Deschutes Market Road.

This trail in northeast Bend is planned to be a 10-feet-wide multi-use trail with a primarily compacted gravel surface, similar to other canal trails in Bend, while some portions will have asphalt surface. Phase 1 includes development of the trail between Canal Row Park and the future extension of Yeoman Road, which will also provide access to Pine Nursery Park. The segment of the trail that passes through the new Pahlisch Homes Petrosa subdivision will be transferred to BPRD for management upon completion and will offer connections to interior trails for Fieldstone Park. https://www.bendparksandrec.org/project/northunitcanaltrail/

<u>Riverfront Street Deschutes River Trail Improvements</u>: The City of Bend has decided to proceed with the one-way design concept of Riverfront Street after receiving strong support from the public and BPRD. The project will now be entering the design phase, which will refine the one-way preliminary design for construction-ready design documents. Funding for construction has still not been identified, so a further timeline cannot be provided at this time.

Riverfront Street, between Galveston Avenue at Drake Park, to Miller's Landing Park, is a local street with a sidewalk that has functioned as the DRT for many years. It is one of the last remaining "gaps" along the trail through downtown Bend. In 2023, BPRD and the city signed an intergovernmental agreement as a joint effort lead by the City of Bend and supported by BPRD. The renewed project will seek to improve conditions for trail users as well as replace the street and other public infrastructure as needed. https://www.bendparksandrec.org/project/deschutes-river-trail-riverfront/

Manzanita Trail: The district has acquired a 3.44-acre piece of property and the final easements necessary to complete the trail between Discovery Park and Shevlin Park. A portion of the trail was completed in the fall of 2024 and the trail is planned to be fully constructed later this spring.

COMMUNITY/REGIONAL PROJECTS

<u>Miller's Landing Park River Access Project</u>: Construction is in full swing on the two access points at Miller's Landing Park. Work is expected to last through the winter with completion by summer of 2025.

After opening in 2014, the access points no longer serve the population as intended. The new design improves river access for boaters and river users with mobility restrictions by redeveloping the boardwalk, and the access point at the north end of the park will be improved for swimming, wading and slower-current water recreation. The preferred concept design was completed and approved under the 2023 McKay, Miller's, and Columbia Park River Access and Restoration project. Funding for the construction of this project includes grant funds from the Bend Sustainability Fund, the Oregon State Marine Board Waterway Access Grant Program, Oregon's Local Government Grant Program, and a donation from the Joseph & Elizabeth Hoffart Charitable Foundation. https://www.bendparksandrec.org/project/millers-landing-river-access-project/

Art Station: District staff are currently reviewing 90% documentation. Permit application is in process, and the project is expected to go out to bid this spring.

This new facility will be built adjacent to the basketball court at Larkspur Park. It will have an entry space, three classrooms, office space, and restrooms. The surrounding natural space and trails will be a beneficial asset to the Art Station for inspiration and space to create, while preserving the landscape and trail experience to the fullest extent possible. https://www.bendparksandrec.org/project/art-station/

<u>Bend White Water Park Maintenance and McKay Park River Access Project:</u> Staff has reviewed the informational report prepared by the consultant team. Next steps include additional data analysis and site survey, and meeting coordination with regulatory agencies.

Completed in 2016, the Whitewater Park is due for review and maintenance. The first phase of this project will use survey and engineering analysis to compare the current functions of the park with the original design intent. Once the reports are complete, the district will determine a scope of work for a project to update and improve the whitewater park features. The project also includes improving river access for all users at McKay Park. The preferred concept design was completed and approved in 2023 under the McKay, Miller's, and Columbia Park River Access and Restoration project.

https://www.bendparksandrec.org/project/bend-whitewater-park-maintenance-and-mckay-park-access/

<u>Columbia Park River Access Project:</u> Final design documents and permit applications are in the works, with an anticipated start date for construction in winter 2025/2026.

The preferred concept design includes bank improvements to enhance the natural area within this reach of river frontage. Also included is a small hardened access point for river users to enter and exit the river, or to sit and relax by the water. This project was prioritized from the 2018 Deschutes River Access and Habitat Restoration Plan and the preferred concept design was completed under the 2023 McKay, Miller's, and Columbia Park River Access project.

South East Bend Regional Park Site (aka Rose Property): The Hearings Officer reviewing the zone change request issued a recommendation for approval on January 18, 2025. Next, county staff will schedule a public hearing before the Board of County Commissioners and a hearing is anticipated in February or March. The commissioner's decision is followed by a 90-day appeal period before the ordinance becomes effective.

Purchased in 2023, this large property of approximately 450 acres was acquired for future community park needs as the city expands in the southeast area.

ASSET MANAGEMENT PROJECTS

<u>Park Services Complex:</u> Design direction for the project has been confirmed and the design development phase is anticipated to kick off this month. The design team is developing their scope and fees to finish out the project.

The district has executed a purchase and sale agreement (PSA) with the City of Bend for the purchase of their existing utility shop on Boyd Acres Road to become the new Park Services site. This PSA allows the city to occupy the facility until their new facility is complete, which is anticipated at the end of 2025. The district is developing a design for tenant improvements to be constructed once the district takes ownership of the property.

<u>Hollinshead Park ADA and Preferred Concept Design</u>: The design team continues to work on, and refine, construction documents. Construction is estimated to begin in 2027.

Knowing the importance of this historic property, community members and BPRD staff worked together in 2010 to develop a preferred concept plan for the future of the property. Improvements for the park include a new permanent restroom, ADA-compliant pathways, renovation of the parking area, enclosing the off-leash area, a "history walk" with interpretive signs in collaboration with the Deschutes Historical Society, and a maintenance report to preserve the park's structures. https://www.bendparksandrec.org/project/hollinshead-park/

<u>Sylvan Park Playground Renovation:</u> With site survey complete, staff began the public outreach campaign by opening a public survey to collect feedback from neighbors about current use of the playground and suggestions on possible play opportunities. The survey is seeing good response to date and will close on January 31. Survey feedback, along with the opportunities and constraints of the site, will be used to develop the design concepts for the playground replacement.

The small wood-based playground was built in 1993, no longer serving the needs of the neighborhood. The district will replace the playground and surfacing, and create an accessible route to the playground from the parking area. https://www.bendparksandrec.org/project/sylvan-park-playground-renovation/

<u>Boys and Girls Club Wall Renovation:</u> Schematic design is complete. Drawings are currently in review by staff and the consultant is preparing the cost estimate.

The Boys & Girls Club is a historic building on the National Register of Historic Places. The structure is owned by Bend Park and Recreation District, operated by the Boys & Girls Club on property owned by the Bend-La Pine School District. The entry to the building from NW Wall Street utilizes an exterior staircase for access to the second floor. The structural wall supporting the staircase is failing and needs to be replaced.

OTHER PROJECTS AND FUTURE DEVELOPMENT

<u>Park Search Area Planning:</u> District planners regularly work with local developers or private property owners to acquire property for new parks and trails in district Park Search Areas as defined by the 2018 Comprehensive Plan: 2024 Midterm Update.

Park Search Area 14 (Parkside Place): District staff have been negotiating a Purchase and Sale Agreement (PSA) with
Hayden Homes, LLC for the neighborhood park and trail properties within the Parkside Place subdivision
development. The draft PSA will come to the board for review and consideration on February 4, 2025. Per the draft
PSA, the district acquisition of the property will occur no later than June 30, 2026. After property acquisition,
outreach and project design will commence.

Parkside Place is an approximate 37-acre development that will contain a mix of 346 single family, town home and multi-family housing units of which 40%, or 139 units, will be affordable with costs not to exceed 80% of the Area Median Income. The development includes a proposed approximately 4.09-acre neighborhood park and three trail tracts that align with the planned location of the Big Sky Trail.

<u>Discovery Park Art Corridor</u>: After the district approved the installation of up to four art pieces along the Outback Trail in Discovery Park, Brooks Resources applied for and received a \$100,000 grant from Visit Bend's Sustainability Fund for the installation of three art pieces; two sculptures and a community labyrinth. The labyrinth has been completed, with the other two sculptures expected to be installed in 2025. *A dedication ceremony will be held at 4pm on April 2nd in Discovery Park.*

SDC Waivers for Affordable Housing: Park SDC waivers for 637 units have been approved through coordination with the City of Bend's Affordable Housing Committee at a cost to the district of about \$4.16 million in waived SDC fees. The board approved an additional 150 waivers for 2025 and 2026, none of which have been used yet. Staff and legal counsel have completed the necessary deed restriction documents for 15 of the developments, totaling 426 units. In addition, BPRD has approved SDC waivers for three temporary shelter projects, totaling 32 units.

Diversity, Equity and Inclusion (DEI) Initiative: The DEI committee is working on a communication framework and determining 2025 priorities.
